Event Description: Building Warrior Women Pistol I is a customized training event designed by women, for women. Participants assisted in building their own learning experience as a part of the instructional design strategy. The following training areas will be explored:

- **Developmental Marksmanship:** Every shot counts with deliberate practice. Exercises you can use at home to develop mega-cognition in the area of precision marksmanship.
- **Concealed Draw Essentials:** No matter what you carry, or how you carry, there are fundamentally sound principals in drawing from concealment to include “relative positioning.”
- **1-Handed Shooting and Weapon Manipulation:** As seen a AGAG National Conference. We will explore the what, the how, and the why to one handed work with a handgun to include flashlights.
